This program deals mainly with practical case studies and certain key subjects, with a pluridisciplinary focus. It prepares students and professionals for operations such as large acquisitions or market transactions, cross border mergers, complex financing, restructuring, LBOs, financial engineering, and industrial projects. These are interesting operations, offering difficulties that often lead to innovative solution seeking. It is particularly educational to study them and analyse the legal, financial or accounting issues raised. Thus, contracts, guarantees, financing and international trade litigation, among other basic subjects, can be studied from different angles.

**MODULES**

**ARTIFICIAL INTELLIGENCE AND THE LAW OF THE TECHNOLOGIES OF THE FUTURE**
This module reviews the challenges and opportunities offered by the new technologies but also the loopholes and the necessary changes Artificial Intelligence may dictate.

**ENVIRONMENTAL AND SUSTAINABLE DEVELOPMENT LAW**
Principles governing environmental policy and international and European environmental law.

**MERGERS AND ACQUISITIONS**
Various forms of companies and concentrations between firms; rules governing mergers and acquisitions in an international environment.

**INTERNATIONAL ARBITRATION**
Resolving disputes through international arbitration (commercial, investment); the principles governing arbitration agreements, proceedings and awards.

**INTERNATIONAL CONTRACTS**
Legal and contractual scope and treatment applicable to international contracts.

**INTERNATIONAL COMPANY LAW**
Rules of bankruptcy, restructuring proceedings, insolvency proceedings and issues...

**INTERNATIONAL INTELLECTUAL PROPERTY LAW**
This course will focus on the international legal instruments which enable the right balance between the interests of innovators and the wider public interest.

**INTERNATIONAL TAX LAW**
Subsequent to the Taxation and Customs Law course, this course considers the international aspects of taxation and provides an introduction to the key issues of this branch of international law.

**COMPARATIVE CORPORATE GOVERNANCE**
State-of-the-art of theoretical debates, legislative changes and new governance practice, offering a vital contribution to the tentative positive changes in corporate governance in different parts of the world (US, Europe and Middle East).

**STATES AND INTERNATIONAL TRADE LAW**
Main principles and rules of international trade law applicable to public contracts: BOT (Build-Operate-Transfer Contracts); public-private international partnerships; litigation related to State contracts.

All courses are delivered in English and take the form of seminars taught by professors from University Paris II Panthéon-Asss, as well as practitioners from law firms and major companies.
DEAN DUBAI CAMPUS

Born in 1962, Guillaume Leyte defended his doctoral thesis in 1993 at the University Paris II Panthéon-Assas. He was elected president of the university in 2012 and re-elected by his colleagues and the board of trustees to the helm of the presidency in 2016. Professor of the Law Faculties (History of Law and Institutions) in 1994, his research focuses on comparative law and institutions history, comparative constitutional history and the history of legal thought and policy. He taught at the universities of Strasbourg, Amiens and Paris-Descartes before being elected in 2002 at the University Paris II. He has been director since 2005 of the Institute of History of Law and currently chaired the Department of Roman law and legal history since 2008. Internationally, in 2010-2012, Guillaume Leyte was deputy director of the Institute of European and comparative law at Oxford University. In addition, he was elected three times to the National Council of Universities (CNU) and two-time national competition aggregation history of law and institutions.
